

2019 mPower Innovations User Group Conference September 10-13, 2019

Event Details

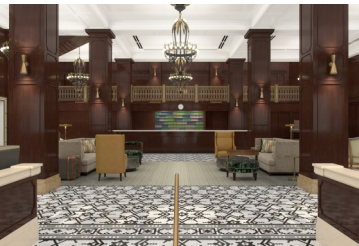

mPower Innovations is pleased to announce our fourth annual User Group Conference in Green Bay, Wisconsin! Our User Group Conference is our most valuable training opportunity of the year, offering 18 hours of training and ample time to network with peers and learn how to get even more out of our suite of software products.

New this year is the opportunity to participate in round table discussions and sit down and consult with our technical specialists. Throughout this event, we show attendees how to get even more value from the solutions they are using, highlight new innovations and share client success stories.

2019 mPower User Group Conference
